CCR No. 98- 0690	Logged Date 06-07-98	Rev. -	Request Type CCR
Priority Routine ☐ Urgent ☒ Emergency ☐		Affected Release Dev -I	Change Class

Title (description)
COTS maintenance upgrade to Purify for Sun Platforms

Documents Affected 910-TDA-010 Rev: c0	Source Nos (RID, NCR, Action Item, GSFC CCR, etc.) or Tech Reference CCR 98-0435

RTM Change ☐　　　Start New Baseline ☐

Problem

The COTS evaluation of Purify 4.1 for Sun has been completed. Purify 4.1 needs to be installed in /tools and available for all developers to utilize for checking all application code, including source code, shared and system libraries.

Proposed Solution

- Load Rational Purify 4.1 in /tools for the Sun platforms to access for run-time error and memory leak detection utilization.
- The /net/impala/home/purecache/sun5.5 may be cleaned up to save space because Purify 4.1 will create a new purified library without deleting the previously purified library created by Purify 3.2 cache directory.
- Move the ECS COTS Version Baseline-DEV to Purify 4.1 for Sun platforms. (red-line baseline change attached)

Impact Analysis:

Organizations Affected:
